

Now comes “**EYE SHADOW <107>**”, which is the key color of this eye makeup. First, take up some Champagne Gold at the left side of the palette on the applicator tip and shade it over the upper eyelid, starting from the base of the upper lashes toward the crease of the eye, giving natural-looking gradations. See how the metallic glow gives off a cool, futuristic image? Place eye shadow generously on the inner eye corner as well to add more shimmer. Next, take up Powerful Brown at the left side of the palette and blend it in over the upper eyelid from the outer eye corner up to the center. Also place it along the edge of the lower eyelid, drawing a line. Then connect the two at the outer eye corner. This makes the eyes look more extended and creates the base for the piercing “Devilish Angel” eyes. Finish by blending in light brown at the center of the upper eyelid to create a natural 3-D look!

接著主要色調「**眼影<107>**」登場。首先，抹點色盒左邊的香檳金粉，塗在上眼皮，從睫毛根部開始一直塗至眼摺處，產生自然的層次效果。現在看到金屬光澤透出酷酷、未來風格的味道了吧？然後再在內眼角處多塗點眼影，讓眼睛產生閃閃動人的效果。接著，用色盒左邊的搶眼棕粉再塗一次上眼皮，從外眼角一直塗到中間部位。另外也沿著下眼皮邊緣，用棕粉畫出一條線。然後將上下眼皮的眼影都塗至外眼角，這可讓眼睛看起來更大，營造出銳利的「魔鬼天使」電眼。最後再於上眼皮中間塗上淺棕色眼影，馬上就出現自然的立體效果！
